### The role:

The Director Projects is responsible for project development, EPC management and the EPC group. The respective teams are reporting to the Director of Projects.

The range of projects goes from utility scale projects African regions to industrial roof top systems in the MENA region as well as in industrial centers in Africa. Phanes Group is currently realizing a pipeline of 29+ MW of rooftop and car port PV systems for a UAE customer and is targeting to expand this pipeline throughout 2017 and the forthcoming years. The rooftop systems are constructed by Phanes Group's subsidiary Oryx Solar Systems. Utility scale systems in Africa are realized by the team through EPC management of contract partners.

### Primary Duties and Responsibilities

The Director of Projects has a range of duties as listed but not limited to the following:

- Project development and planning
- Work out worldwide project development and realization plans;
- Project development in African regions;
- Project related work of the Oryx Solar team;
- Oversee and manage the objective of the project with the senior management and customers;
- Contribute to contract negotiations;
- Review the project schedule with the project team, suppliers, contractors and the senior management;
- Organize and manage the project teams according to the policies and practices of the company;
- Support sponsors to conclude operation and maintenance contracts;
- Liaise with the different stakeholders of the project (clients, contractors, local authorities, etc.).

### Project Implementation

- Manage the projects' execution through the dedicated teams;
- Set up structures to ensure that all project information is documented and secured;
- Monitor the progress of the project and initiate adjustments as necessary to ensure the successful completion of the project;
- Establish a communication schedule to update stakeholders including appropriate staff in the organization on the progress of the project;
- Review the quality of the work completed with the project team on a regular basis to ensure that it meets the project standards;
- Budgetary project controlling and supervision;
- Deliver status reports to management and sponsors;
