Purpose:

Phanes Group is currently realizing and developing PV projects in MENA and Sub-Saharan Africa. Project development at Phanes Group starts from the very beginning (potential project identification) or from ready to build completion for third party projects.

The Senior Project Development Manager will coordinate/manage local project developers located in Sub-Saharan African countries, ensuring cost and time efficient project development. Upon financial and technical close of the projects he/she will handover transfers the project to project management for execution and ensures the support of the team during project construction.

Primary Duties and Responsibilities:

The Senior Project Development Manager has a range of duties as listed but not limited to the following:

Project Development

- Define the commercial, regional and technical objectives of the projects with the senior management and investors;
- Identify potential projects;
- Assess third party projects coming from business development;
- Determine the resources required to develop the project;
- Manage the initial layout and component selection of the project;
- Take care of the relevant permitting process;
- Initiate and control third party expertise and consultancy services;
- Draft request for quotations and initiate supplier/contractor selection;
- Contribute to contract negotiations, including PPA, Connection Agreement, EPC and O&M contracts;
- Review initial construction plan and schedules;
- Review structured financial models and provide inputs;
- Organize and manage the project development team according to the policies and practices of the company;
- Contract qualified external consultants for the project if applicable;
- Liaise with the different stakeholders of the project (clients, contractors, local authorities, etc.);
- Support business and project execution team.

Senior Project Development Manager

Full-time Position
Dubai, UAE

Project Implementation

- Develop forms and records to document project activities;
- Set up structures to ensure that all project information is documented and secured;
- Monitor the progress of the project development and make adjustments as necessary to ensure the successful completion of the project;
- Establish a communication schedule to update stakeholders including appropriate staff in the organization on the progress of the project;
- Review the quality of the work completed with the project team on a regular basis to ensure that it meets the project standards;
- Deliver status reports on the project for management and sponsors;
- Communicate with sponsors as outlined in funding agreements;
- Monitor and approve all budgeted project expenditures;
- Available to frequent business trips to Sub-Saharan countries.

Qualification

- 10 years of relevant work experience;
- Project management background;
- Understanding and experience in project financing;
- Experience in solar energy markets;
- Language skills: proficiency in English; French of advantage.

Personal Characteristics

The Senior Project Development Manager should demonstrate competence in some or all of the following:

- Effective and decisive communicator;
- Foster teamwork cooperatively and effectively with others to set goals, resolve problems;
- Positively influence the project team and demonstrate leadership;
- Assess situations to determine risks and make clear decisions.

About Phanes Group

Phanes Group is an international solar energy developer, investment manager and asset manager, strategically headquartered in Dubai, UAE. Established in 2012, Phanes Group has a growing portfolio of solar investments and developments spanning multiple geographies, with a distinct focus on emerging markets - especially MENA and sub-Saharan Africa. Phanes Group is currently delivering the Middle East's largest distributed solar project (the DP World Solar Programme) and the largest solar project in the Caribbean (Monte Plata). Cumulatively, the company's clean power contribution is in excess of 70 megawatts, with a further 1.5 GW under development or at the planning stage around the world. In 2016, Phanes Group launched a dedicated asset construction division and broadened its footprint in sub-Saharan Africa with the opening of satellite offices in Nigeria and South Africa.
