- Extremely high attention to detail;
- Ability to learn, understand and clearly explain complex concepts (financial structures, energy policies, tariff structures);
- Ability to multitask, work under pressure and deliver on a timely basis with a high degree of accuracy;
- Self-motivated, proactive with ability to prioritize and results driven.

Phanes Group is an international solar energy developer, investment and asset manager, strategically headquartered in Dubai with a local footprint in sub-Saharan Africa, through its office in Nigeria, the region's largest economy. Cumulatively, the company's global clean power contribution is in excess of 70 MW, with a further 1.5 GW in the pipeline – including 227.5 MW of grid connected PV solar in Nigeria across three different projects. The first of the three Nigerian projects, in the Sokoto region, is backed by one of the Nigerian government's 14 PPAs. In addition, the group is developing off-grid solar solutions to ensure communities across the region have access to a stable and clean energy supply.
